Executive Headteacher

Miss Ella Barnes
Deputy Head

18th December 2019

Dear Stalham Families,

Festive Science Fun

This festive period our science ambassadors would like to share our love of science by giving you the opportunity to take part in the Christmas themed science activities that we will be doing at home with our families.

We have made a list of our twenty most favourite, festive and fun activities for you to choose from. There are also two extra booklets with activities if you would like to do something different. These are available on our website.

We are also keen for you to show off your science creativity! So if you would like to complete or design a different festive science activity we would be excited to see what you come up with!

For every task you complete you will receive three merits. In addition, the two children from each class with the most activities completed will receive an extra fun science session involving making ice-cream and explosions, at school with Mrs Lamb.

Each time you complete a task please add on Twitter @stalhamacademy with the hashtag **#stalhamscience**. If you do not have Twitter, please email Mrs Lamb rlamb@stalhamacademy.co.uk who will post them for you and is able to anonymise any posts should you request. If you would like to also bring in anything you make for this please give this to your year group science ambassadors.

We are very excited to share this with you and lots more exciting things in the future!

Thank you as always for your support, we hope you enjoy the activities.

Yours scientifically,

Stalham Academy Science Ambassadors.
